

**We are a group of lifelong learners making a long lasting, helpful and selfless difference in the lives of others through giving and propelled by Fun, Friendships and Singing (in that order).**

We have an annual event as well as participate in local events

Thrills over Trophies

We are more concerned with what we can give than what we can get, both musically and relationally

FUN is the most important word in our dictionary

New members are welcome by invitation only.

A handwritten thank you card is sent to every new visitor and signed by every member

The chorus feels like "Cheers" where everyone knows your name and are happy when you walk in the door

We have a very clear vision when it comes to how we connect with our community

We have fellowship activities outside of rehearsals

We know that FUN and Fellowship are most important; the Singing will come

We never mention the words "Contest" or "Score"

We only take people of good character

We are singing songs that are familiar to me and others including those we sing for

Members can not leave another chorus to come here

There are no auditions. ALL voices are welcome.

We realize that this is a hobby
